AT A GLANCE

1,112,946

public reviews, Jan 2025 to Sep 2026

21,000

detractor reviews tagged to 8 complaint drivers

34.5 points

NPS gap, Blinkit vs Zepto, Jul to Sep 2026

Blinkit leads Zepto by 34.5 NPS points in Jul to Sep 2026, and quality and freshness and missing or wrong items explain 10.3 of them

Blinkit, Jul to Sep 2026

44.4 (± 0.5)

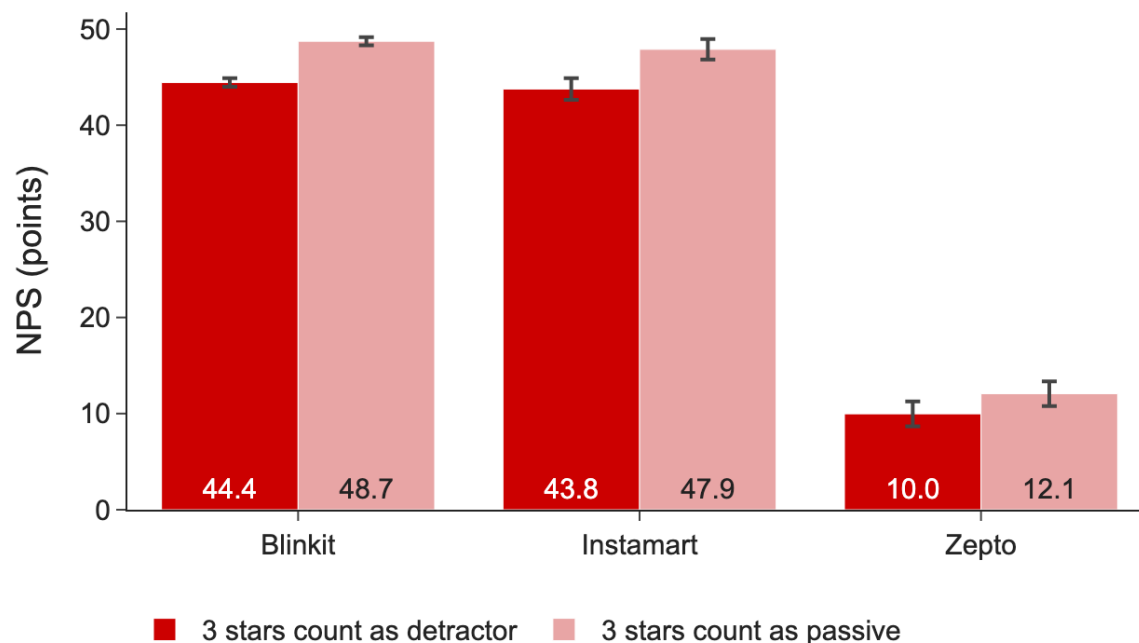

Instamart, Jul to Sep 2026

43.8 (± 1.1)

Zepto, Jul to Sep 2026

10.0 (± 1.3)

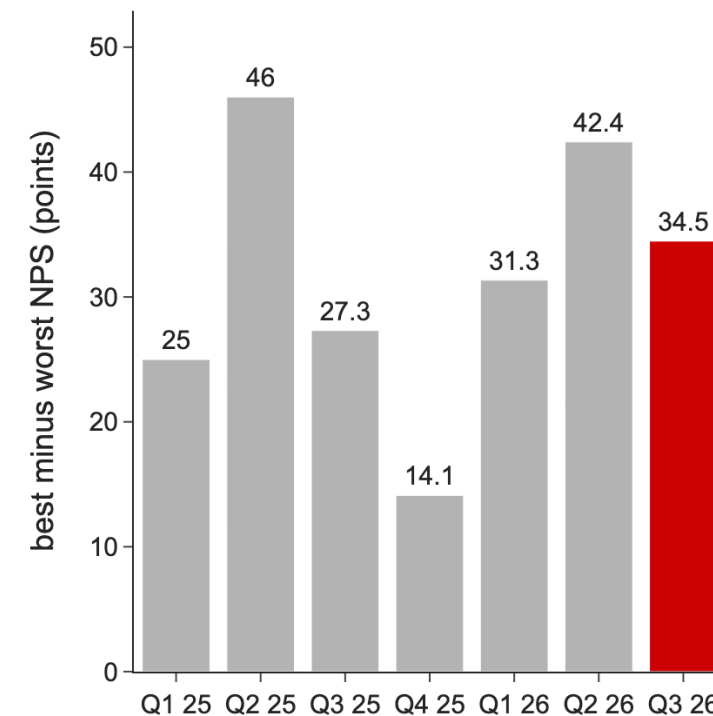

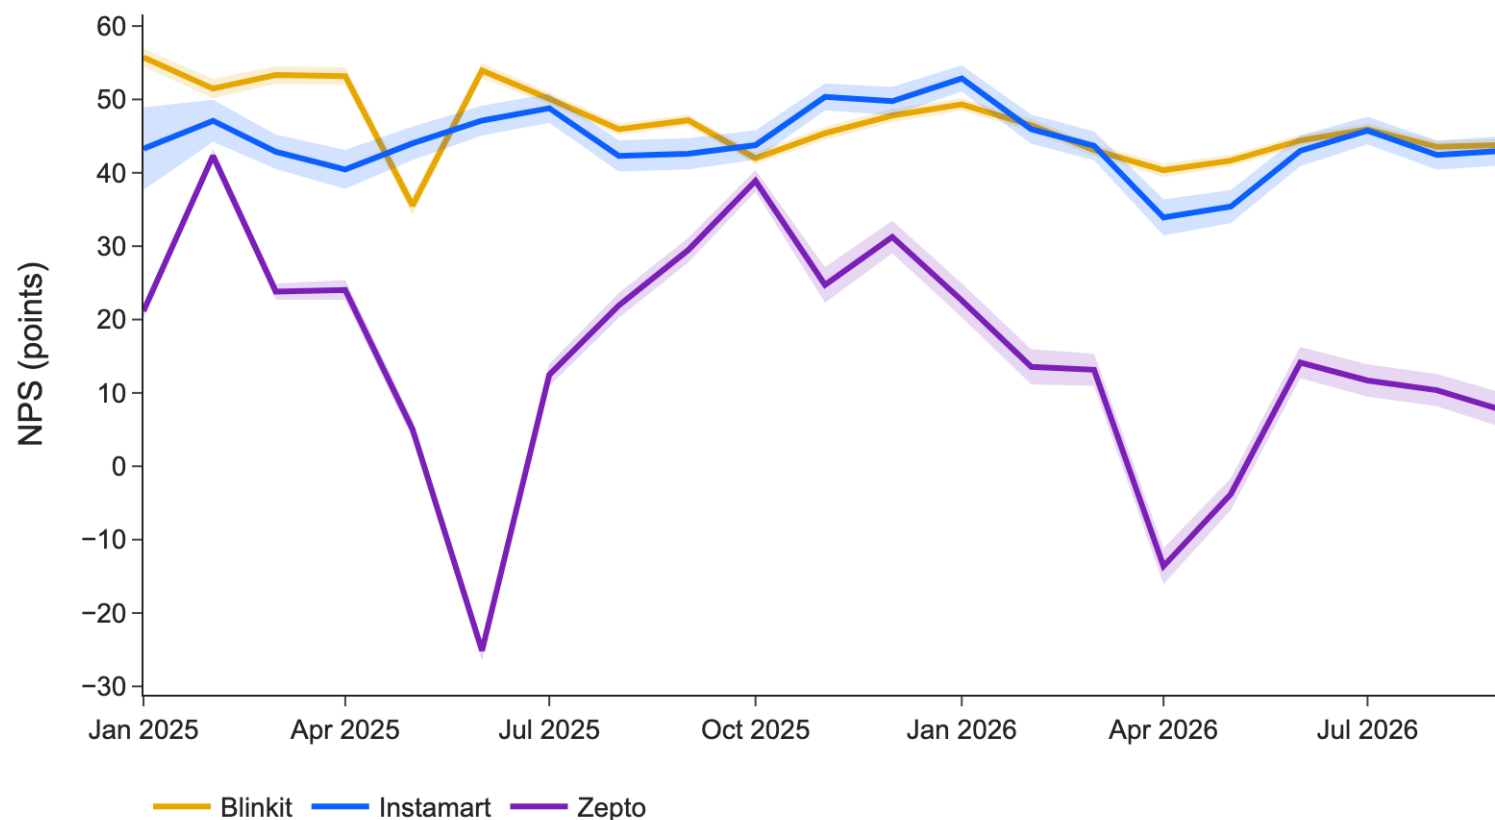

The 34.5 point gap: 14.2 from more 5 star reviews at Blinkit, 20.3 from heavier complaints at Zepto.

Biggest complaint gaps: quality and freshness 6.0, missing or wrong items 4.4, support and rider behaviour 3.5 points.

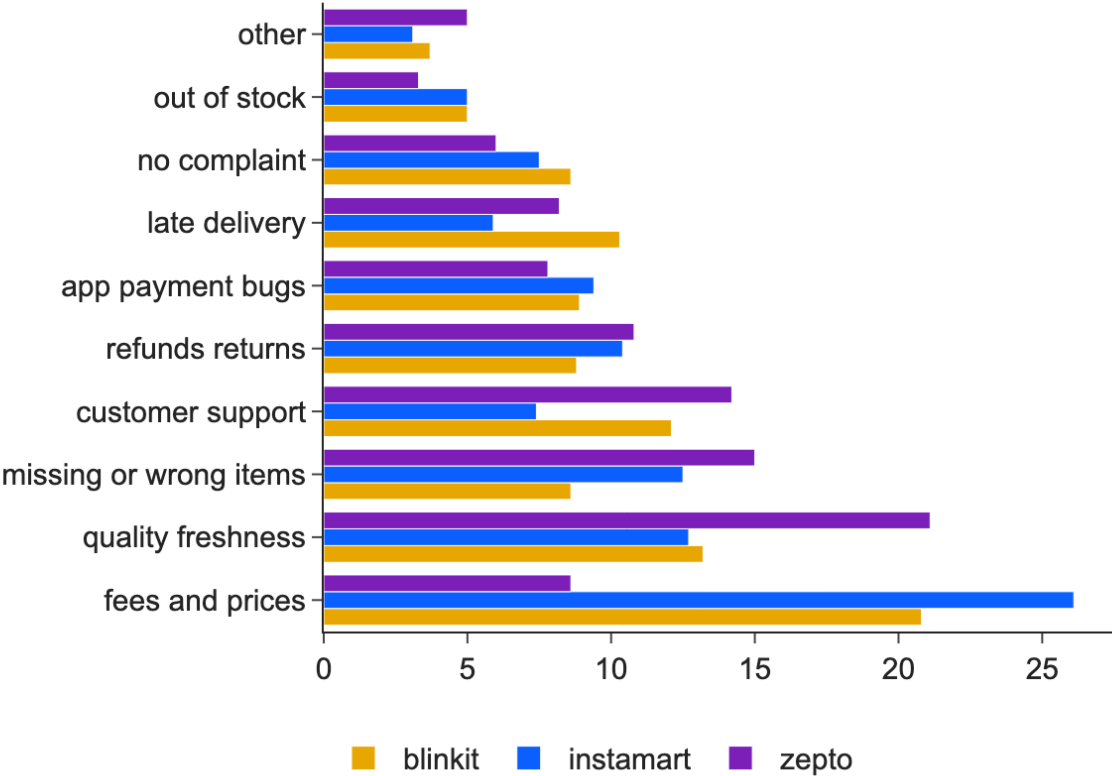

The ranking holds in 7 of 7 quarters when 3 stars count as passive. First place leads by 0.7 points against ± 1.2 , so treat it as a tie.

Blinkit and Instamart stayed between 34 and 56 NPS points for 21 months while Zepto swung from -25 to 42 and ended at 7

Best minus worst NPS in each quarter. The gap has not closed.

Fees and prices lead the complaints at Blinkit (21%) and Instamart (26%), but quality and freshness lead at Zepto (21%)

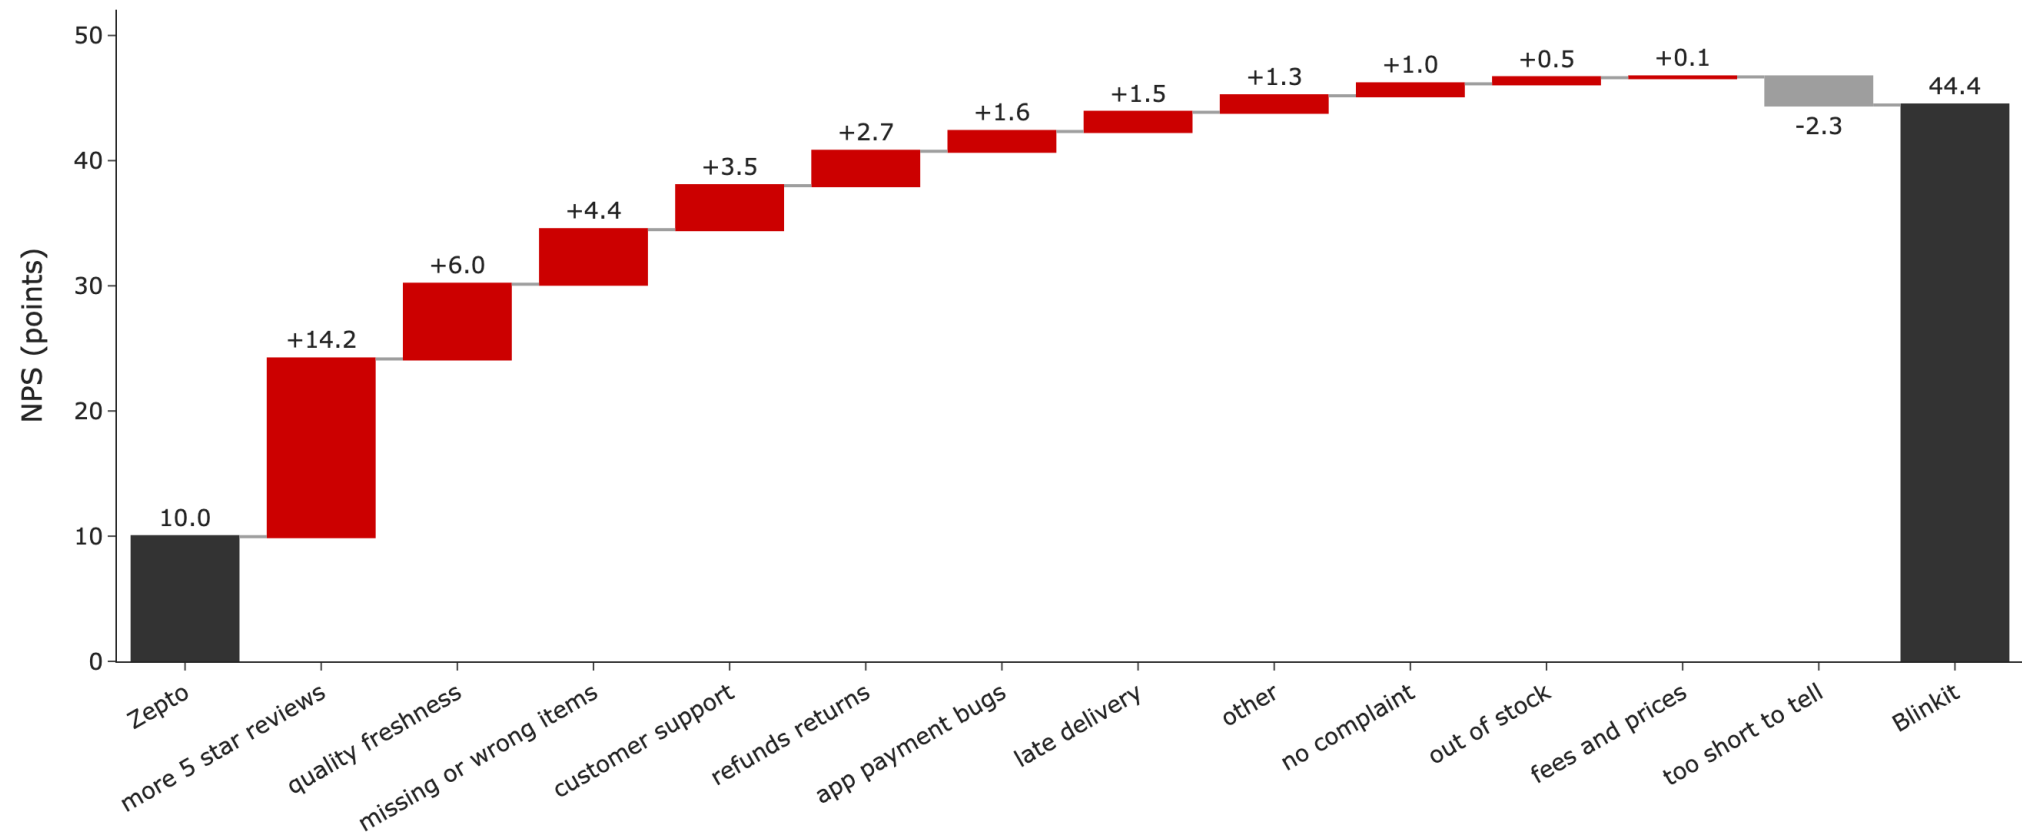

too short to tell	7.1	6.7	4.8
quality freshness	2.0	2.1	8.0
fees and prices	3.2	4.2	3.3
missing or wrong items	1.3	2.0	5.7
customer support	1.9	1.2	5.4
refunds returns	1.3	1.7	4.1
app payment bugs	1.4	1.5	3.0
late delivery	1.6	1.0	3.1
no complaint	1.3	1.2	2.3
other	0.6	0.5	1.9

	Blinkit	Instamart	Zepto

Share of tagged detractor reviews, Jul to Sep 2026.

NPS points lost to each driver, per app (all reviews).

Blinkit's 34.5 point lead over Zepto is 14.2 points of 5 star reviews, then 6.0 from quality and freshness and 4.4 from missing or wrong items

Blinkit NPS 44.4 vs Zepto 10.0, 2026Q3: NPS points by source

Source: Google Play reviews, India, English, 1,112,946 reviews. Bars sum to the gap; driver bars carry up to ±1.0 points of sampling error.

RECOMMENDATIONS

Fixing quality and freshness, missing or wrong items and support and rider behaviour at Zepto is worth up to 13.8 of the 34.5 NPS points to Blinkit

6.0

1. Quality and freshness (±1.0)

Check expiry and condition of perishables at packing, and pull items that get repeat complaints.

4.4

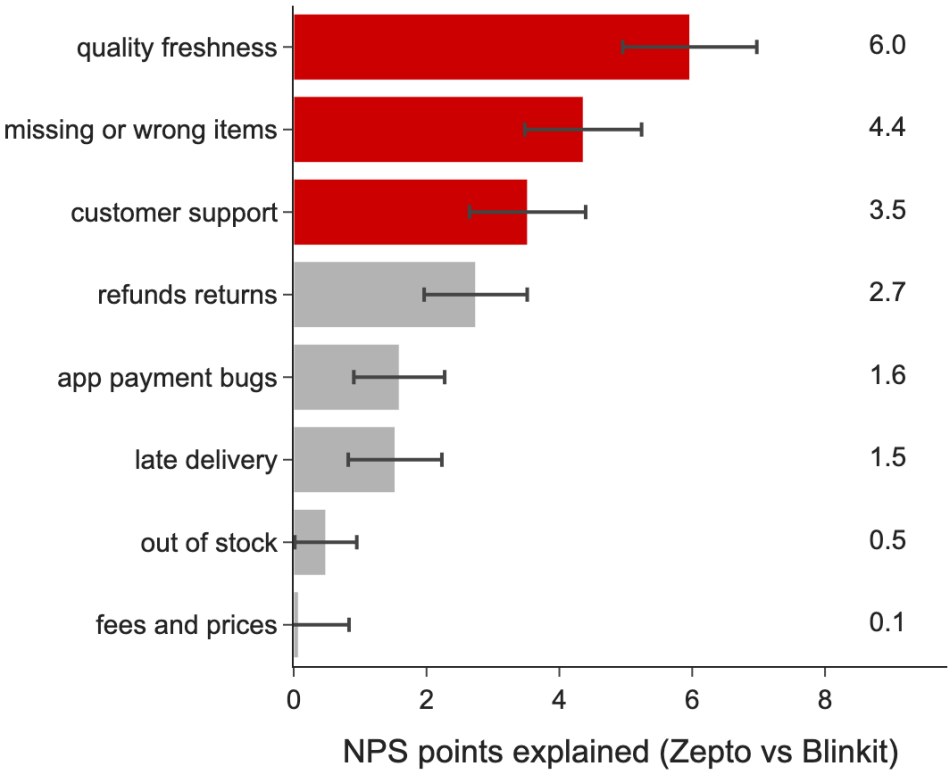

2. Missing or wrong items (±0.9)

Add a pick and pack check, and require proof of drop before an order can be marked delivered.

3.5

3. Support and rider behaviour (±0.9)

Give a human agent path after the bot, shorten the first human reply, and coach riders on conduct.

Points at stake are the extra NPS points Zepto loses to each driver compared with Blinkit in Jul to Sep 2026. Matching the leader's rate would recover them. The ± is sampling error from the tagged sample.

The numbers are a review based proxy for NPS, tagged by a model and checked for consistency, not yet against human labels

Method

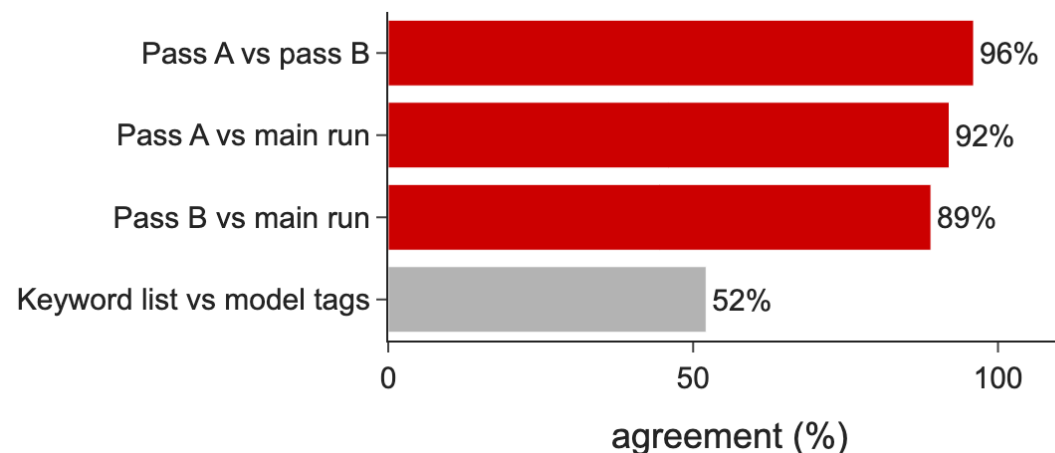

Promoter 5 stars, passive 4, detractor 1 to 3. 1,112,946 reviews over 21 months.

21,000 detractor reviews (1,000 per app per quarter, 4 or more words) tagged to 8 complaint drivers by Claude in an interactive session.

Two independent tagging passes agreed on 96% of 100 reviews (kappa 0.954).

A keyword list agrees with the model tags on 52% (kappa 0.46).

The waterfall splits the 34.5 point gap exactly.

Limitations

Review based proxy, not survey NPS. Reviewers skew negative.

Play Store and English only. Tags not yet checked against human labels.

Driver bars carry up to ± 1.0 points of sampling error, and Blinkit's lead over second place is inside its margin.
